THE ALL-IN-ONE BACKPACK AIRBAG

Ride. Without compromise.

Urban mobility has become today, and for the decades to come, one of the most important challenges for everyone. Move and travel, yes, but safely.

Don't choose between comfort, utility and safety.

HELITE proposes you to make no more compromises with the new **H-MOOV backpack airbag**, dedicated to motorcycle riding.

A single model that can be adapted to any riding type and to a maximum of morphologies, for optimal protection.

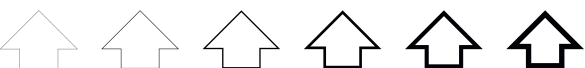

Removable backpack for more practicality and freedom.

Suitable for all weather conditions: breathable, but also waterproof with impervious closure.

Unique airbag that adapts to different morphologies.

Proven development for motorcycling: high quality, durable, abrasion resistant materials and TURTLE technology (integration of a SAS-TEC level 1 back protector)

Available in both mechanical and electronic versions.

Characteristics

Weight

2,6 Kg

Dimensions

55 x 33 x 20 cm

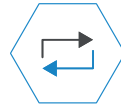

Capacity

18L to 23L

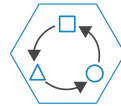

One size fits all

One size so you can grow with your H-MOOV over the long term. Excellent fit with reinforced and adjustable shoulder straps.

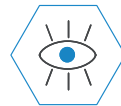

Reusable

Like the whole HELITE product range, the H-MOOV is reusable. Just change the cartridge in a few minutes, and you can ride again with peace of mind, protected and enjoying its protection, without any wait.

Features

This is the keyword of the H-MOOV. The H-MOV has been designed around this principle, so you can enjoy the backpack for any use, and any weather, thanks to its many features. In short, whatever your use, the H-MOOV will allow you to do it, and in safety.

Visibility

Dedicated to urban use, the H-MOOV offers reflective parts for better visibility at night.

Mixed

For men or women.

Helmet holder

Water bag (not included) pocket

Removable airbag

Numerous storage spaces

Capacity 18L -> 23L

Rain cover

Protection

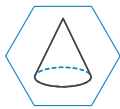

Protection of vital areas

The airbag offers HELITE's expertise in protection of vital areas: back, cervical thorax, abdomen, sacrum.

TURTLE technology

The H-MOOV also offers a great back protection (SAS-TEC level 1) with improved absorption and distribution of forces on impact thanks to the TURTLE effect.

Large volume of protection

The H-MOOV has a large volume of protection (18L) for maximum impact absorption and good coverage of vital areas.

Ultra-fast inflation

The airbag inflates before impact.

The H-MOOV is worn over the motorcycle equipment and therefore offers **better protection** than airbags that are worn underneath.

It offers a **greater volume of protection**, a excellent **neck hold** and **no risk of compression** when inflating.

Quality

Made in France

For 20 years, the Helite team has been putting its expertise at the service of your protection.

Helite 4 year warranty

Register your airbag on the my.helite.com website and benefit from a free 2-year warranty extension.

Responsive customer service

Our customer service is always available to answer your questions and advise you on the proper use of your airbag.

Certification

The H-MOOV backpack airbag is CE certified by ALIENOR CERTIFICATION notified body n° 2754 according to protocol AMC-012 : 02/2020. It complies with the requirements of the EU regulation 2016/425.

FAQ

? Can the H-Moov backpack airbag be reused after an inflation?

YES, the backpack airbag does not have a limit number of inflations. It all depends on the condition of your backpack airbag after a fall or an accident. You can recondition the airbag yourself in just a few minutes!

? How to choose the right size of the H-MOOV backpack airbag?

The H-MOOV backpack airbag is available in one size that can fit people between 1.65m and 1.95m tall. We therefore advise you to wear it if it fits you. Before using it, you must adjust your backpack airbag according to your morphology and the motorcycle equipment on which it will be worn (jacket, suit, etc.).

To adjust it, enlarge or reduce the 2 side straps. The backpack airbag must be pressed against your chest, neither too loose nor too tight.

? Can the passenger of the motorcycle wear the H-Moov backpack airbag?

YES, the backpack airbag can be worn by the motorcycle driver and/or passenger. Simply follow the instructions provided with the user guide of the H-Moov backpack airbag.

? Can I wear something over the H-Moov backpack airbag?

NO, this could prevent the airbag from inflating.

? What is the maximum load weight of the H-Moov backpack?

The maximum load weight of the backpack is 8Kg.

? Can the airbag be used on a electric scooter or bicycle?

NO, the H-MOOV backpack airbag has been designed to be used only for road motorcycling. It should not be used for any other application such as motocross, trial, freestyle, pitbike, circuit, acrobatic tricks (wheelies, swerves), cycling, scooter, horse riding, skiing, etc.
