

## PROTECTION OF VITAL PARTS

### PREVENTS WHIPLASH

Deployment of a collar effectively blocking the movement of the helmet and head.

### AVOIDS HYPER-EXTENSION

Complete airbag protection on the hips that stiffens the trunk and prevents damage to the spine.

### PROTECTS AGAINST IMPACTS

Big airbag volume adapted to the size and optimal pressure for a maximum impact absorption.

version 2024-1

RELIABLE EFFICIENT SIMPLE

### BIG PROTECTION VOLUME

17L normal size - 28L large size to perfectly cover the vital parts

### REUSABLE

the system can be reactivated in 2 minutes by yourself, you only need to change the cartridge

### MECHANICAL TRIGGER SYSTEM

reliable and without operational constraints (no battery, no unexpected airbag activation)

### PROTECTION FROM 0 KM/H

for all types of impacts

# COLLECTION

## WHAT IS THE TURTLE TECHNOLOGY?

*A high-quality back protector (SAS-TEC level 2) is placed over all our airbag as a rigid outer material like a turtle shell so that the whole back is protected in case of a fall.*

- ✓ DISTRIBUTION OF IMPACT FORCES
- ✓ OPTIMAL BACK PROTECTION
- ✓ PROTECTION AGAINST INTRUDING OBJECTS

<b>H-MOOV</b>	<b>7690,-</b>
